Rachit Bhardwaj

Pital Nagri, Suraj Nagar, Moradabad, Uttar Pradesh 244001

rachit.bhardwaj.work@gmail.com | +91-9675547651 | LinkedIn | Portfolio | GitHub

Professional Summary

B.Tech Computer Science student with hands-on experience in full-stack development using the MERN stack. Skilled in building responsive web applications, RESTful APIs, secure authentication systems, and database-driven solutions. Familiar with integrating AI-powered features and exploring machine learning techniques.

Technical Skills

Languages: Java, Python, JavaScript, C
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, REST APIs, Authentication
Databases: MongoDB, MySQL
Developer Tools: VS Code, PyCharm, Eclipse, MongoDB Compass, SQL Workbench, Postman, Git, GitHub
Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks.

Internship & Training

- **Project-Based Experiential Learning (PBEL) in Generative AI — IBM:** Worked on Python-based Generative AI projects involving data processing, AI application development, and applying Generative AI concepts.

Projects

VisionAI | *MERN Stack, Python, CNN, EfficientNet-B0, OpenCV* **GitHub**

- Developing an AI-powered retinal disease screening system using EfficientNet-B0 and transfer learning to classify fundus images for retinal disease detection.
- Applying image preprocessing techniques, including CLAHE, resizing, and normalization using OpenCV, to enhance retinal image quality before model prediction.
- Integrating AI-generated health reports, recommendations, chatbot assistance, and doctor consultations through report sharing within 7 days and appointment scheduling based on doctors' available time slots.

PathGuider AI | *MERN Stack, Tailwind CSS, JWT, Generative AI* **GitHub**

- Developed a full-stack student counseling platform using the MERN stack, providing AI-powered academic assistance, guidance resources, and direct access to counselors.
- Implemented an AI chatbot with conversation history, counselor messaging, ticket management, and appointment scheduling through available time slots.
- Built role-based authentication for students, counselors, and admins, including counselor approval, appointment management, and an analytics dashboard.

Saray | *Node.js, Express.js, MongoDB, EJS, Bootstrap, Passport.js, Cloudinary* **Demo**

- Developed a full-stack homestay booking platform enabling users to explore, list, and review properties using Node.js, Express.js, MongoDB, and EJS.
- Implemented secure authentication and session management using Passport.js, Express Session, and Connect-Mongo with persistent user sessions.
- Built CRUD functionality for listings and reviews, integrated Cloudinary for image storage, and deployed the application on Render.

Education

Moradabad Institute of Technology, Moradabad **July 2023 – July 2027**
Bachelor of Technology (B.Tech.) in Computer Science and Engineering *CGPA: 7.38*

Achievements & Certifications

- Completed **8+ NPTEL certifications** across Computer Science, Cybersecurity, AI, Data Analytics, and IoT.
- Earned the **Cisco JavaScript Essentials** certification.
- Earned the **IBM Generative AI** certification.

Leadership / Extracurricular

MIT Tech Club **July 2024 – Present**
Event Coordinator *Moradabad Institute of Technology*

- Organized and coordinated multiple technical and non-technical events across the college, ensuring smooth planning and execution.
- Led the Robo War and Web Development competitions by managing registrations, scheduling, logistics, and participant coordination.
