Education

Moradabad Institute of Technology, Moradabad **July 2023 – July 2027**

Bachelor of Technology (B.Tech.) in Computer Science & Engineering *CGPA: 7.38*

Projects

Saray | *MERN Stack, Express.js, MongoDB, Passport.js, EJS* **Demo**

- Built a full-stack homestay booking platform using MongoDB, Express.js, Node.js, EJS, and Bootstrap, enabling users to discover, list, and review homestays.
- Implemented secure authentication and authorization using Passport.js, Express Session, and Connect-Mongo with protected routes and persistent user sessions.
- Designed RESTful APIs and modular MVC architecture to perform CRUD operations for listings, reviews, and user accounts using MongoDB and Mongoose.
- Integrated Cloudinary for image storage, reusable middleware for validation, flash messaging, and deployed the application on Render.

PathGuider | *HTML, CSS, JavaScript* **Demo**

- Developed a responsive student guidance platform using HTML, CSS, and JavaScript, providing career resources, counselor profiles, blogs, and FAQs.
- Designed interactive pages including authentication screens, messaging interface, password generator, and review modules using vanilla JavaScript.
- Built reusable frontend components with responsive layouts to ensure compatibility across desktop and mobile devices.
- Structured the project for future backend integration using modular file organization and scalable design practices.

MealMate | *Java, Swing, MongoDB* **GitHub**

- Developed a Java Swing-based desktop application for restaurant billing, menu management, and order processing with an intuitive graphical interface.
- Integrated MongoDB for persistent storage of menu items, customer records, and billing information through database connectivity.
- Designed modular application components following object-oriented programming principles to improve maintainability and scalability.

Technical Skills

Languages: Java, Python, JavaScript, C
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwand CSS
Backend: Node.js, Express.js, MongoDB, REST APIs
Databases: MongoDB, MySQL
Technologies: Git, JWT Authentication, Passport Session
Developer Tools: VS Code, Pychram, Eclipse, MongoDB Compass, SQL Workbench, Postman, GitHub
Concepts: Data Structures Algorithms, OOP, DBMS, Operating Systems, Computer Networks.

Achievements & Certifications

- Completed **8+ NPTEL certifications** across Computer Science, Cybersecurity, AI, Data Analytics, and IoT.
- Earned the **Cisco JavaScript Essentials** certification.
- Earned the **Google Cybersecurity** certification.
- Earned the **IBM Generative AI** certification.

Leadership / Extracurricular

MIT Tech Club **July 2024 – Present**

Event Coordinator *Moradabad Institute of Technology*

- Organized and coordinated multiple technical and non-technical events across the college, ensuring smooth planning and execution.
- Led the Robo War and Web Development competitions by managing registrations, scheduling, logistics, and participant coordination.
